1. Implementasi Manajemen Proyek

Untuk memastikan pelaksanaan proyek berjalan sesuai jadwal 90 hari metode RAD yang telah direncanakan, tim pengembang menggunakan perangkat lunak manajemen proyek berbasis cloud, yaitu Jira Software. Penggunaan alat ini bertujuan untuk menjamin transparansi pembagian tugas, memantau kemajuan (progress) secara real-time, serta mendokumentasikan setiap kendala yang terjadi selama pengembangan sistem POS dan Website Toko Daging Sawangan.

2. Manajemen Tim dan Akses

Tim pengembang telah dikonfigurasi ke dalam lingkungan kerja (workspace) Jira dengan pembagian peran yang jelas. Setiap anggota tim memiliki akun aktif yang memungkinkan mereka menerima penugasan, memindahkan status kartu tugas, dan memberikan laporan kendala.
